Keyser before Section A of the American Association is printed in full in Science for March 26. His theme is the desirability and feasibility of organizing in every university a course such that an advanced student, while specializing in some other field, may yet gain a general knowledge of mathematical problems and processes. The mathematics section of the Michigan Schoolmasters Club met in Ann Arbor, April 1, 2 and 3. The program consisted of short discussions of practical phases of the teaching of high school mathematics, among which were Practical applications of high school mathematics and Correlation between mathematics and other branches, and correlation of the various mathematical disciplines. The Annual Conference of high school teachers in Kansas with the State University was held at Lawrence on March 26, 27, 1915. The leading paper at the mathematics section was given by...
