Differential Geometry: 1972 Lecture Notes

By Robert Geroch

Minkowski Institute Press. Paperback. Book Condition: New. Paperback. 158 pages. Dimensions: 8.9in. x 6.0in. x 0.5in.Robert Gerochs lecture notes on differential geometry reflect his original and successful style of teaching - explaining abstract concepts with the help of intuitive examples and many figures. The book introduces the most important concepts of differential geometry and can be used for self-study since each chapter contains examples and exercises, plus test and examination problems which are given in the Appendix. As these lecture notes are written by a theoretical physicist, who is an expert in general relativity, they can serve as a very helpful companion to Gerochs excellent General Relativity: 1972 Lecture Notes. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
