Random House USA Inc, India, 2010. Paperback. Book Condition: New. 202 x 130 mm. Language: English . Brand New Book. We are now so abusing the Earth that it may rise and move back to the hot state it was in fifty-five million years ago, and if it does, most of us, and our descendants, will die. -James Lovelock, leading climate expert and author of The Revenge of Gaia I don t see why people are so worried about global warming destroying the planet - peak oil will take care of that. -Matthew Simmons, energy investment banker and author of Twilight in the Desert The Coming Saudi Oil Shock and the World Economy The twin crises of climate change and peaking oil production are converging on us. If they are not to cook the planet and topple our civilization, we will need informed and decisive policies, clear-sighted innovation, and a lucid understanding of what is at stake. We will need to know where we stand, and which direction we should start out in. These are the questions Carbon Shift addresses. Thomas Homer-Dixon, author of The Ingenuity Gap and The Upside of Down, argues that the two problems are really one: a carbon problem. We depend on carbon energy to fuel our complex economies and societies, and at the same time this very carbon is fatally contaminating our atmosphere. To solve one of these problems will require solving the other at the same time. In other words, we still have a chance to tackle two monumental challenges with one innovative solution: clean, low-carbon energy. Carbon Shift brings together six of Canada s world-class experts to explore the question of where we stand now, and where we might be headed. It explores the economics, the geology, the politics, and the science of...
