Reviews

Thorough manual for pdf lovers. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Excerpt: .Telegraph Co., both established in Lima. These are cables built specially for this class of service and came from companies in the United States. Here again the influence of Americans has turned business to the American manufacturer, as the engineer of the telephone company is an American and the cable company has its head offices in New York. The wire used by the Government telegraph lines and the telephone company of Arequipa and Mollendo is galvanized iron, sizes 8 and 12 respectively. It is all bought in the United States. The two traction companies, one in Lima and the other in Arequipa, and to a smaller extent the lighting companies make repairs that put them in the market for various classes of wire. Except for repairs there is no demand for any quantity of such wire, for there are no manufactures that use it. A limited amount is used by local repair men, and one or two of them sometimes construct devices for heating water or other small industrial purposes. TELEPHONES. The telephone system in Lima and suburbs is furnished by the Peruvian Telephone Co., located in Lima. This company was estab lished in 1888 and is the only one operating in that section. At the end of March, 1917, there were 3,335 subscribers, who are served from a central station or switchboard with positions for 4,000. At the end of June, 1916, there were 3,135 subscribers. This is a central energy system using...
