Office of Inspector General Audit Report: Status of FAA s Major Acquisitions: Project Id: AV-2003-045 (Paperback)

By -

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.We released our second annual report on the status of FAA s 20 major acquisitions. We found that cost growth, schedule delays, and performance problems continue, with the 20 projects experiencing overall cost growth of about $4.3 billion and schedule slips of from one to seven years. To control its acquisition costs, we recommended that FAA update the cost, schedule, and performance baselines for at least the Standard Terminal Automation Replacement System (STARS), Integrated Terminal Weather System, Local Area Augmentation System, and Wide Area Augmentation System. This updating process may require FAA to establish a new strategy that accelerates some projects and defers others. We also recommended that FAA develop and use performance goals for assessing the progress of its major acquisition projects.

This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).
