Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Jews: A Study of Race and Environment This volume is an attempt to present the results of anthropological, demographic, pathological, and sociological investigations of the Jews. Considering that one-fifth of all the Jews in the world live at present in English-speaking countries, and that the migrations of Eastern European Jews tend toward the United States and England with its colonies, I believe I need not apologize for claiming attention to this subject. The facts presented are not available in any book, and it may safely be declared that the whole world is interested in the subject of the Jews as a race, and the getting into closer touch with the ethnic relations of the Jews. Moreover, the perennial problem, whether it is possible to assimilate the vast number of Southern and Eastern immigrants to the United States and British colonies has been applied more to the Jews than to any other white people. It has even been questioned whether there is ever a probability of incorporating the Jews into the body politic of Anglo-Saxon communities. That anthropology only is competent to answer this question is agreed. Yet there is no book in English treating of the race traits of the Jews. The literature on the subject in English consists mostly of investigations by special parliamentary commissions, containing opinions of statesmen, social workers, educators, etc. It appears that the prevailing opinion is that the Jews, alleged to have maintained themselves in absolute racial purity for three or four thousand years, may prove hard to assimilate. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is...
